Educational Trust**

“ From the **Chairman's Desk** ”

I take extreme pride and pleasure to write this message for the newcomers who will come to the umbrage of Aarogyam Hospital and educational trust, Garhwa, Jharkhand. I am truly convinced that a student will achieve an excellent abode of knowledge under the tutelage of our sincere and dedicated faculty members. Pharmacy, as an individual curriculum of study has gained the reverence of students for its multifaceted dimensions. A pharmaceutical technologist helps mankind in diverse ways. He prepares medicines for incurable diseases as a pharmaceutical technologist, fetches the medicines to the reach of common people as medical representatives, engages himself in clinical research, even he can be the officer of Quality Assurance or Quality Control of the medicines in the big production houses and last but not the least, he can develop himself as an independent entrepreneur. Since 2005, Aarogyam Hospital and educational trust, Garhwa, Jharkhand has been a reliable name for the aspiring Pharmacy professionals. We believe in sustainable development of a professional. Receiving knowledge does not only mean to achieve academic brilliance, but, it also stands for a holistic development of mind. Apart from delivering quality education, we encourage students to participate in National and International seminars, symposia, extra-curricular activities like music, dance, drama, sports and voluntary social works like tree plantation, blood donation, spending quality time with the inmates of various orphanages. These activities inject the humane qualities in an individual. Even, in this institution, students are trained to be the future entrepreneurs by the help of an active Entrepreneurship Development Cell.

With high hope and enthusiasm, I welcome all budding Pharmaceutical Technologists to the centre of knowledge where educational nurturing and professional grooming go hand in hand for producing the best professionals for Pharmaceutical Industry.

Ritesh Ranjan

Chairman

**Aarogyam Hospital
&
Educational Trust**

In tune with the vision of Aarogyam Hospital and educational trust Garhwa, Jharkhand, to transform the Institution to a global center of learning, we impart the much needed up-to-date knowledge to our beloved students in a friendly and homely environment. The faculty of the Institution is hand-picked from academia and industry and we boast of a very high teacher-student ratio, comparable to none in this part of the country. The manpower behind the Institution maintains a balance of young dynamic individuals and highly experienced seniors who steer the teaching and learning process of the college as per the dynamic global requirements. This is reflected in the high rate of placement of our students after their coursework and the highly satisfying feedback that we get from their employers. This results in the prospective employers returning to us for more students every year.

The college cultivates and encourages out-of-the-box thinking necessary for success in the profession and patronizes the students to acquire strong scholastic ability, integrate diverse perspectives and approaches with real world applications, to become future pioneers in the profession of Medical Science. We are proud of our well-earned reputation as a premier institution for academic and research pursuit – thanks to our students and the supporting management, motivated faculty and staff.

The college provides ample opportunities in extra-curricular activities, viz., social service programs, sports, various competitive and non-competitive cultural events, quizzes, etc. – at institutional, local, state and national levels. Every year, our students bring laurels from such events. This all-round development is necessary to make a complete professional.

I, on behalf of the management, faculty, staff and students of Aarogyam Hospital and educational trust Garhwa, Jharkhand, welcome the prospective students and their guardians to visit and join us in our journey to make India a fundamentally strong country and a global player. Wishing everybody all the success in your academic pursuits.

Ankesh Pandey

COURSES

B.Sc. Physiotherapy

B.Sc. in Physiotherapy is the full-time undergraduate level course that teaches its students to take care of patients who are in physical pain. The domain of the physiotherapy goes a long way. Pain due to old age, or diseases like rheumatoid arthritis, pain after any accident as well as rehabilitation all come under the purview of this course. B.Sc. in Physiotherapy course is essentially a part of medical science. Topics covered under these courses include Human Anatomy, physiology, pathology pharmacology, psychology, medical and surgical conditions, biomechanics disability prevention, rehabilitation and other subjects. Moreover six months Clinical Internship is must to complete the course. The necessary skill set other than that of B.Sc. in Physiotherapy course curriculum is soft skills like good communication, empathy understanding the problems of the customers. Since this job requires maintaining a close relationship with clients, understanding their needs is very much required. The students need to be empathetic and compassionate to understand the pain both the mental and physical pain of the patient

B.Sc. MLT

B.Sc Medical Laboratory Technology (MLT) is an Undergraduate Program offered by Arogyam Education of Science. Medical Laboratory Technology is an Allied Health specialty concerned with the diagnosis, treatment and prevention of diseases through the use of clinical laboratory tests. Though the Medical Lab technologists spend less time with patients than doctors and nurses, medical laboratory professionals are just as dedicated to patient's health. As vital members of the health care team, medical laboratory professionals play a critical role in collecting the information needed to give the best care to an ill or injured patient. The fact is that the practice of modern medicine would be impossible without the tests performed in the laboratory. Medical laboratory professionals have unlimited choices of practice settings. Hospitals, clinics, nursing homes, public health facilities, and commercial laboratories all have positions open right now for qualified laboratory professionals. In these settings, communication and research skills are highly valued. Employment of clinical laboratory workers is expected to grow as the volume of laboratory tests increases with population growth and the development of new types of tests.

Name of Course	Duration	Eligibility	fees Per Year
